SACRAMENTO REGISTER OF HISTORIC AND CULTURAL RESOURCES

R Street Historic District

The buildings within this District face R Street from 10th Street running east to 12th Street. The construction dates run from 1910 to 1930 with the use concentrated in warehousing, commercial distribution and light industrial.

Inasmuch as Sacramento's early development was so closely tied to the evolution of the railroads, those structures still remaining along the R Street tracks are of particular importance in reflecting this connection. Remaining railroad-related enclaves of structures are rare along the tracks. This grouping whose uses were related to railroad access and transportation needs reflect that important relationship. The boundaries are well defined by a change in building styles to the north and south and newer construction to the west and east.
