Description:	EPC Submittal - Remodel of Commercial Building - The project consists of the remodel of 96 SF of space within the existing sterile processing area of the Outpatient Surgery Services building to create a vestibule for access to the temporary sterile processing trailer (to be installed by others). The remodel includes the installation of two exterior access doors, one from the sterile processing area and one from the decontamination area. Both doors are for exclusive access to the sterile processing trailer and are not for public use. The vestibule will consist of one exterior door with card reader access and a powered door auto-opener and one interior door from the vestibule into the sterile processing area. The decontamination area will have a new exterior access door with card reader access and a powered auto-opener. The decontamination area will also install a new 3-compartment sink and replacement/relocation of the existing 3-compartment sink from another project to replace the existing 3-compartment sink to be removed.
