Candidate Statement:

I'm running for City Council because I love this community. I have lived in Oak Park for eight years. The City of Sacramento has so much to offer, yet we are plagued with homelessness and violence.

I have witnessed first hand unaffordable housing. From Oakland to Oak Park, gentrification is pushing residents out of their communities. This is increasing the homeless population, and shattering the dreams of younger generations to purchase a home.

We all want a safe city to live and thrive. We must invest in our youth, and use our resources to invest in child care and after school programs. Investing in our youth is one tool to violence prevention however, we must remove the guns from the streets.

I have worked hard to serve the community, by volunteering for 4RFriends Street Vets, which included the pets of the homeless population and Harm Reduction Services. I also worked at the Covid Clinic and knocked on doors with the US Census.

I promise to put people over profits and be available. My experience working in government agencies allows me to get to work quickly. I would love your vote and hope you tell others about me.
