Candidate Statement:

As your Councilmember, I'm proud of the work we've done to provide permanent housing for people less fortunate, addressing the impacts of COVID, keeping people from being evicted, deploying millions of dollars to small businesses to safely stay open, and improving parks and recreation space for our families. There is so much more that must be done and together - we can get even more done.

Working with you, I will continue to be a fierce advocate for keeping our communities safe, ensuring our city's economic renaissance uplifts everyone, and continue to address our toughest challenge, the housing and homelessness crisis. I'm firmly committed to ensuring the city and county move faster to get people off the streets and into housing while making sure that quality of life issues are addressed.

I believe in making sure everyone has a seat at the table. That's why I will ensure we invest in our communities, particularly under-resourced communities and those disproportionately impacted by the pandemic.

I am proud to be supported by our Sacramento Area Firefighters, Congresswoman Doris Matsui, small business owners, and organizations representing working men and women. I would be honored to earn your vote. www.RickforSacramento.com
