

Name of Candidate: **Tamiko Heim**
Office Sought: **City Council District 5**
Age (optional): **43**
Occupation: **Infrastructure Planning Manager**
Candidate Statement (200 word limit):

For me, freedom and non-violence are linked. I see reproductive freedom through the history of those who were denied any freedom. Planned Parenthood Advocates Mar Monte endorsed me for City Council. We are working to win Proposition 1. Join us in voting “Yes” for reproductive freedom.

I aspire to live in a non-violent city. A city that understands how the Civil Rights and Farm Workers Movements delivered freedom and social change in the 1960’s through non-violence during times when our country was even more divided than today.

On the City Council, I will invest in programs in every library, recreation center, and neighborhood school that inspires young people to embrace non-violence and reject gun violence.

A first step is the “Sacramento Children’s Health and Safety” ballot measure. It will spend 40% of the city’s cannabis tax revenue on programs to keep children healthy and safe. Let’s all vote “Yes.”

I will lead Sacramento to build programs that put young people on real pathways to real futures with jobs that bring them economic freedom. When young people believe in their future, they reject the dead-end that comes with violence.

I hope to have the chance to make this happen.
