

**City of Sacramento
City of Festivals Special Event Support Program
Notice of Grant Availability**

Applications are now available for City of Festivals Special Event Support Program grants.

This program provides funding to events that provide a substantial economic benefit to the City of Sacramento, including Parking revenue, and are consistent with family-oriented themes, entertainment, activities, and events that emphasize the Sacramento River region. Only events held within the City of Festivals Special Event Support Program boundary on the map shown below are eligible for this grant opportunity.

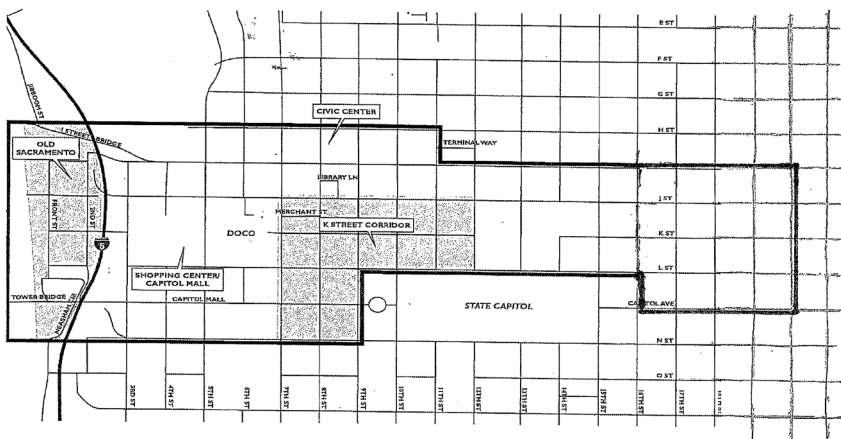

Funding for this program will principally be used to offset costs for providing city services associated with an event. In certain cases additional monetary support may also be granted. The program's funding budget is \$100,000 per fiscal year to be distributed among grant applicants on an annual basis. The program is funded from the City's Parking Fund. The City reserves the right to limit the number of grants awarded each fiscal year at its sole discretion.

Applications will be accepted on a continuous basis. Applications must be submitted no less than 45 calendar days prior to the event date for consideration by the City. The City encourages interested parties to submit applications as soon as possible.
