

# PHARMACY BENEFITS

## Managing Your Prescriptions

Sutter Health Plus partners with MedImpact for prescription drug benefits, including retail, mail order and specialty prescriptions.

### Retail Pharmacy

Pick up your prescription drugs at most independent pharmacies and chains where you may shop—CVS Pharmacy, Raley's, Bel Air, Safeway and Walgreens, to name a few.

### Mail Order Pharmacy

Sign up for mail order pharmacy service through Postal Prescription Solutions (PPS) and receive:

- Up to a three-month supply, as your benefit plan allows, of your maintenance prescription drugs for the cost of two retail copays
- Free standard shipping of your prescription drugs

### Specialty Pharmacy

Purchase specialty prescription drugs through AllianceRx Walgreens Prime. These prescription drugs can be mailed at no cost to your home, or you may request to pick them up at your local Walgreens pharmacy.

### MedImpact Pharmacy Portal

View sample pharmacy benefits for some of our most popular plans through the MedImpact Member Portal including:

- Pharmacy locator tool
- Drug price check tool
- SutterSelect formulary
- Mail order pharmacy information
- Specialty pharmacy information

## Transferring Your Prescriptions

If you are new to Sutter Health Plus and you or your covered dependents currently pick up prescription drugs from a pharmacy outside the MedImpact network, follow these steps to transfer your prescriptions.

### Before Your Effective Date

**Check to see if you have refills left** on your active prescriptions:

- If you have refills available, fill them through your current health plan before your effective date to ensure you have an adequate supply on hand until you establish care with your new Sutter Health Plus provider
- If you do not have refills available, contact your current prescribing provider as soon as possible; refill your prescription through your current pharmacy before your effective date

**Request a written prescription** to take to your new pharmacy to be filled on or after your new health plan effective date.

**Check the Sutter Health Plus Formulary** to see if your prescription drug requires a prior authorization; if so you will need to know about the Medication Continuity of Care process described in your *Evidence of Coverage and Disclosure Form*.

### After Your Effective Date

**If you have refills available**, take your prescription bottle to a MedImpact network pharmacy for up to a 30-day supply; the MedImpact network pharmacy will work with your current pharmacy to transfer your prescription.

**If you have a written prescription from a provider**, take it to a network pharmacy for up to a 30-day supply.

**If you take a prescription on a regular basis**, consider using mail order fulfillment through Postal Prescription Services (PPS); you may obtain up to a three-month supply, as your benefit plan allows, of your maintenance prescription drugs for the cost of a two-month retail supply.

- Contact PPS at 1-800-552-6694 or visit [ppsrx.com](http://ppsrx.com)

**If you take specialty medications**, you must fill your prescription through AllianceRx Walgreens Prime.

- Contact AllianceRx Walgreens Prime at 1-888-955-2695 or visit [alliancerxwp.com](http://alliancerxwp.com)
- AllianceRx Walgreens Prime can mail your prescriptions or send them to your local Walgreens pharmacy for pick up
