

Colorful Tube Bugs

Supplies:

Toilet Paper Tubes

Colorful Yarn

2 or 3 Pipe Cleaners

Colored paper

Eye stickers or Wiggle eyes (or you can draw eyes on paper, cut them out & stick them on)

Tape

Glue

- Bend the ends of your pipe cleaners to make feet and then tape the middle of each to the bottom of the tube, one at the front to make front legs and one at the back. You can make another pair of legs for the center if you want it to have 6 legs like a real insect (the picture only has 4).
- Tape the end of the yarn to the end of the tube, at the bottom, then wrap the yarn around the tube until it is covered. Make sure you let the legs stick out.
- Cut a circle out of colored paper, cut it in half to make wings and glue them to the top of your bug.
- Glue on some eyes and you've got a cool bug!
