STRATEGIC PLAN
Revised September 2018
Executive Summary
EXECUTIVE SUMMARY

The Youth, Parks, & Community Enrichment Strategic Plan launches a new era for Sacramento’s parks, recreation and youth services.

The Executive Team and staff from the Department of Youth, Parks, & Community Enrichment (YPCE) initiated a strategic planning effort in the Winter of 2016 to define ways to improve our services. Sacramento is one of the most diverse cities in the country. Community needs for parks, recreation, youth development, and neighborhood services are extensive and vary tremendously. To support and empower our residents—including people of all ages, cultures, ethnicities, abilities, sexual orientations, interests, and incomes—we need to prioritize and enhance our parks, facilities, programs and services. However, we still have not fully recovered from the 40% budget reduction and staffing cuts we experienced during the recession. Given available resources, we recognize that we cannot meet all community needs alone. For this reason, we have worked to identify our organizational strengths, our mission, key initiatives, and opportunities to collaborate with others to provide the high-quality core services that our residents deserve.

The Youth, Parks, & Community Enrichment Strategic Plan (Strategic Plan) involved selected City leaders, stakeholders, partners, and the YPCE Executive Team in envisioning the future of youth, parks, and recreation services in Sacramento. The Strategic Plan identifies YPCE’s new vision, mission, and goals for the future and describes a new approach to the way we do business: Diverse, Dynamic, Together. The vision and goals have already been embraced by City leaders, resulting in the reorganization and renaming of our department to better align our efforts in providing these core services.

The strategies in this plan are intended to mobilize YPCE staff to work towards our shared vision and goals. The Strategic Plan identifies the key actions we will take to provide the Sacramento community with the high-quality parks, recreation facilities, programs, events and services. It also identifies performance measures, so we can gauge our success in making a positive difference in our community.
The Strategic Plan is the first step in an ongoing process to more strongly involve our residents in establishing priorities for YPCE services. It is also intended to be a wake-up call for the entire City. It sheds light on the need for collaborative efforts and a strong, continued investment in youth services, recreation and parks. These assets and services are essential to community livability and a high quality of life.

**THE STRATEGIC PLAN**

The Strategic Plan is divided into seven sections:

1. **Introduction** provides an overview of the planning process and the outreach and engagement efforts through which the Strategic Plan was developed.

MOVING FORWARD

We are proud to introduce the 2018-2023 Strategic Plan to the community to show our revitalized commitment to empowering Sacramento’s youth, improving our parks and facilities, strengthening our neighborhoods, and providing life-enriching programs. In conjunction with implementing this plan, we will work with residents and City leaders to address community priorities and needs for Youth, Parks and Community Enrichment. We will also reach out to our residents—including people of all ages, cultures, ethnicities, abilities, sexual orientations, interests and incomes—to learn more about community priorities. Community insights will help us annually prioritize projects, programs and services to meet community needs. It is imperative that we increase investment in and support of our parks and recreation system so that our spaces, services, and programs can positively impact all Sacramento community members.
