

Disney Memory Game

Materials Needed:

- **Disney Memory Games Cards***
- **Scissors**
- **Cones**

Activity Set-Up:

Print out the memory games cards out **TWICE**. Cut them out and shuffle the cards. Set out two cones for the start and end point. Place all the cards faced down in an array.

Activity Instructions:

Have the all the players line up behind the start cone. When the leader says go, one participant run to the array of cards and flip over two. If the two cards do not match, they must turn them over and run back to the start cone. If the player finds two matching cards, they can pull them out of the array and bring them back to the start cone. This pattern continues until all the matches have been found.
