Access Leisure: Virtual Zoom Sessions
Parent and Care Provider Champion Group

APRIL 2021

Purpose: While we all navigate these challenging times; Access Leisure staff would like to provide time for parents/guardians, family members and care providers of Access Leisure participants to come together to discuss topics as needed. These sessions are meant to be an open discussion and a time to discuss any challenges you are having as well as a time for us to assist you in finding the resources you and your family may need to continue to be healthy at home.

This month we will focus on the Dimensions of Wellness. Alivia Gok, CTRS and Justin Chuong (Recreational Therapy Intern) from the Recreational Therapy Department at The Well at Sacramento State will be joining us for a presentation on the Dimensions of Wellness. Topics for this session will be developed based on assessments completed by past Champion Group attendees. The session will have time for open discussion, questions, and collective brainstorming to work on challenges and to share resources.

Future topics may include at-home leisure activities, mental health needs, quality of life, discussion of additional local resources, and more. Your needs will steer the conversation. Depending on interest, we may seek out guest speakers who can further assist us with topics that affect us all. We hope you find this time to be useful and fulfilling. In the future, this will be a great framework to build from as we develop in-person community support groups which go beyond the current Covid-19 situation.

Note: these sessions are truly meant for families, parents, and care providers. Please avoid bringing your children or participants into these sessions if possible. We are hopeful that this will be a “safe space” of expression. Conversations will not be recorded and will remain confidential amongst those in attendance. Thank you for your understanding and participation.
