Incident Summary

On 7-18-16 at 0506 hrs., Officers Lewis and Price were dispatched to the [REDACTED] Apartments located at [REDACTED] Millcreek Drive regarding a caller who had advised dispatch that her boyfriend's brother was high on narcotics and having a psychotic episode. While enroute, dispatch received six additional calls regarding the same subject banging on vehicles and apartment doors. One caller advised that she had locked herself in her bedroom with her daughters because she was afraid the subject was going to break down her door.

Officer arrived at 0513hrs. Upon arrival, they located a subject walking in the parking lot (later identified as [REDACTED]) matching the callers description. Officers gave [REDACTED] voice commands to stop. [REDACTED] was making erratic movements with his body but complied with the Officers commands. Officer Price placed [REDACTED] into a standing modified arrest position and placed a handcuff on his right wrist while Officer Lewis had control of the left wrist. [REDACTED] attempted to pull away from Officer Lewis so Officer Lewis used an arm bar takedown to bring him to the ground. [REDACTED] landed face down in the grass. [REDACTED] started flailing his arms, striking both Officers in the face and head. Officer Price was struck in the groin by [REDACTED]'s foot or leg.

[REDACTED] fought his way up to his feet and then turned towards the Officers. Fearing for his safety and the safety of his partner, Officer Price discharged his CED at [REDACTED] which was ineffective due to the probes not penetrating [REDACTED]'s shirt. [REDACTED] then turned and walked away. Officers followed him and after he failed to follow voice commands. Officer Price advised him that a CED was being deployed and discharged his CED into [REDACTED]'s back. The CED was effective and [REDACTED] fell to the ground in the grass.

Officers attempted to handcuff him but [REDACTED] again was able to fight his way to his feet and continue his resistance. Officers fell to the ground and [REDACTED] got back up several more times. Officers were beginning to feel exhausted due to the prolonged struggle. Officer Lewis administered the Carotid Control Hold on suspect [REDACTED] which rendered him unconscious. They again attempted to handcuff [REDACTED] but he regained consciousness quickly and continued his resistance. Officer struggled with [REDACTED] for approximately two more minutes until Officers Monelo #307, Fitzgibbon #659, Barret #627, Thompson #471, and Tserov #893 arrived and assisted in restraining [REDACTED] so that he could be handcuffed. Once handcuffed, Officers requested medical aid .

[REDACTED] was transported to Sutter General Hospital by SFD Medic #20. CSI also responded and took photos of the suspect and Officers injuries. Officer Lewis received an approximately .5" abrasion to his right knee as well as a complaint of pain to both knees. Officer Lewis received bruising and swelling to both of his knees. Suspect [REDACTED] sustained an approximately 1" laceration on the firth side of his forehead, a medium 2"x2" abrasion to his left shoulder, and puncture wounds from the CED prongs on his back.

I responded to the hospital to provide medical paperwork to the Officers. Suspect [REDACTED] would calmly ask for water then immediately start screaming incoherently and had to be restrained by several Officers. CSI responded and took photos of the scene, and the injuries of the Officers and suspect.

Instructions from Police Captain Charles Husted to Dep Chief of Police David Risley:	
Ready for final review	
Comments/Response from Dep Chief of Police David Risley:	
Approved: Approved	
Reason:	
Comments: Based on the information provided officers were in violent confrontation with the suspect. Officer attempts to subdue the suspect with lower levels of force were unsuccessful. Officers chose the apply the carotid control hold as a final option. The technique was effective and allowed time for other officers to arrive and assist. Force used was reasonable under the circumstances and within policy.
