

QUICK FACTS:

CITY'S FIRST EV CURBSIDE CHARGING PLAZA

Located at Southside Park on 6th St., near the intersection of 6th and W St.

The City of Sacramento launched the first of three planned curbside electric vehicle charging plazas with EVgo in May 2019. As of January 2020, over 750 unique vehicles have used the project, resulting in more than 475,000 electric-miles powered. The six fast chargers located at Southside Park are along the curb and available to any member of the public.
