

# Voters	Their vote
10	G > C > P > M
3	C > G > P > M
5	C > P > M > G
6	M > P > C > G
4	P > M > C > G

- C looks like the clear winner, meaning he is preferred by a landslide majority over all his individual rivals. C is preferred over G, P, M all by an 18 – 10 margin.

But M wins,

- P is preferred to M by 22 of the 28 voters, yet he is the first candidate eliminated.
- G has more core support (10) than M's 6
