**County and City of Sacramento Office of Emergency Services
Update On Storm Response**

Representatives of the City and County of Sacramento continue to monitor the situation closely and are responding to storm related issues. The storms have caused power outages, localized flooding, downed trees and/or power lines. Below is important contact information for the public.

Sacramento County: For localized street flooding, downed trees or branches in the roadway: call 875-5171.

For water, sewer, or drainage issues: call 875-7246. When the power is restored, we will issue an update that the Call Center is operational.

Information on creek levels: www.stormready.org

Information on emergency preparedness, general information: www.saccounty.net

City of Sacramento: For localized street flooding, downed trees or branches in the roadway, City residents should call: 916/264-5011.

The City has discontinued collecting containerized green waste, garbage, or recycling today due to high winds. Residents can place cans out for collection on Sunday, January 6th or on their next schedule collection day.

Information on emergency preparedness, general information:
www.cityofsacramento.org

What residents can do:

- Clear debris from gutters and downspouts
- Drive safely and slowly
- Keep clear of downed powerlines
- Monitor local weather forecasts
- Tie down or properly store outdoor refuse cans, lawn equipment, decorations
- Inventory or create emergency preparedness kits
- Do not remove manhole covers
- Pet owners check to be sure pets are secure and safe

When to call:

- Roadway is blocked- cannot pass through (trees on private property are owners responsibility)
- Localized flooding
- Down power lines
- Gutters/streets flooded making it unsafe to pass or clear

Updates will be provided as necessary.
