

# Let the sun shine in YOUR classroom!

**Educational grant opportunities are coming your way at the start of the 2010–2011 school year**

**Up to \$1,000 per recipient for solar or energy-efficiency projects**

Solar-focused research!  
Field trips!  
In-class activities!  
Science demonstration projects!  
Community service!  
Sustainability clubs!  
Many more possibilities!

You're eligible if your classroom is:

- K through 12
- Located within the Sacramento city limits

**Get on our mailing list today!**

The City of Sacramento, partnering with the U.S. Department of Energy's Solar America Cities program (<http://www.solaramericacities.energy.gov/>), will be offering financial support to teachers who want to increase their students' awareness of renewable energy. This one-time opportunity can fund educational projects that inform, educate, and engage students on topics related to solar energy and energy efficiency. Grant applications will be available at the start of the 2010–2011 school year and awards will be made for spring semester 2011.
