MEMORANDUM

Date: October 9, 2008

To: Planning Commissioners

From: David Hung, Associate Planner (916) 808-5530 *DH*

SUBJECT: Creekside Homecoming Gates (P07-092)

On September 13, 2007, the Planning Commission approved the above referenced project with the condition that the applicant shall appear before the Planning Commission in approximately one year from the time of approval to report back on crime and security issues. Due to delays in the building permit process, the gates are just being installed at this time. Staff requests that an extension of one year be given to the applicant, until the end of October of 2009, to allow sufficient time to observe and collect data for the complex and then report back to the Planning Commission.
