## Supplemental Material

For

### City of Sacramento Planning Commission Agenda Packet

**For the Meeting of:** October 9, 2008

- Additional Material  
 Revised Material

**Contact Information:** Dana Allen, Senior Planner, 808-2762

**Project Name:** American River Parkway Plan 2006

**Subject:**

At the time of drafting this report, it was undetermined what the City's role as responsible agency is with regards to the CEQA Findings and adopting a Mitigation Monitoring Plan. The County of Sacramento as lead agency under CEQA, adopted the Plan, certified the FEIR and adopted the Mitigation Monitoring Program.

The City, as a responsible agency, has the responsibility for mitigating or avoiding only the direct or indirect environmental effects of those parts of the Plan which it decides to carry out, finance, or approve. The Plan and EIR does not contain any City project-level mitigation measures which the City must carry out, finance or approve. Separate environmental review must be done for any city project proposed within the parkway upon consistency review of the Plan, and with County review and approval of the proejct,

The final CEQA documents shall be corrected with the City Council report.
