(3) The following two conditions and advisory note from the Sacramento Area Sewer District are to be added:

- Sewer service shall continue to be provided by District infrastructure to the existing sewer service lateral(s). Required modifications, if any, shall be to the satisfaction of the District. District Design Standards apply to any on and off-site sewer construction.
- Each parcel with a sewage source shall have a separate connection to the District public sewer system. If there is more than one building in any single parcel and the parcel is not proposed for split, then each building on that parcel shall have a separate connection to a private on-site sewer line or the District public sewer line.
