

Save on Sewer Impact Fees

If you are in the process of starting a commercial or affordable housing project, more than likely you'll face paying sewer impact fees to connect to the Sacramento Regional County Sanitation District system.

But, did you know that the City of Sacramento Economic Development Department offers credits to eligible commercial, industrial, residential users through its Economic Development Treatment Capacity Bank?

This can help you save on your connection cost – **anywhere from 67 to 88 percent** – by providing credits to reduce your sewer impact fees!

Call us today or visit our Web site to find out if your project is eligible
