Sacramento City Ordinance No. 99-044.

Funds 795 and 796 – South Natomas Funds

Fund 795-South Natomas Community Infrastructure Fund (SNCIF) – SNCIF was established in 1983 through development agreements for three properties adjacent to Interstate 5: Metropolitan Center, Gateway Center and Corporate Center. This program established special fees paid by developers for construction of various capital improvements to partially mitigate the impact of new commercial construction within the South Natomas area. The SNCIF development agreements expired in 1993. New development in these areas now requires payment of SNCIF fees at the FBA rate.

Fund 796-Facilities Benefit Assessment (FBA) District – The FBA was formed in 1990. All undeveloped or underdeveloped property within the South Natomas Community Plan area was included in the district, with the exception of property subject to the South Natomas development agreements. Fees are paid by developers and collected when building permits are issued. The purpose of the FBA District was to provide funding for infrastructure needs and community enhancements within the South Natomas Community Plan area. At the time of district formation, the City Council adopted a list of twenty-one specific projects to be paid within FBA funds. This program will ultimately fund \$12.9 million dollars in transportation improvements.
