

INTRODUCTION

The Sacramento Housing and Redevelopment Agency (SHRA) is a joint City and County agency that serves as the Redevelopment Agency and Housing Authority for both jurisdictions. SHRA is responsible for implementing Redevelopment Plans in the 65th Street, Alkali Flat, Army Depot, Del Paso Heights, North Sacramento and Oak Park redevelopment project areas, as well as the City/County shared Auburn Boulevard, Franklin Boulevard and Stockton Boulevard project areas. The City manages the Merged Downtown and Richards/Railyards project areas. SHRA also administers the Community Development Block Grant (CDBG) program, Home Investment Partnerships (HOME) program, Low-Income Housing Trust Fund (HTF) and Neighborhood Stabilization Program (NSP) on behalf of the City and County of Sacramento.

This is the twelfth year for SHRA projects to be included in the City’s Capital Improvement Program (CIP) budget. As part of an ongoing collaborative effort to more efficiently use scarce resources, the capital projects of SHRA are included in this document so that a full picture of all CIP projects can be presented. Because the citywide priorities and targeted SHRA priorities are aligned, some redevelopment Tax Increment (TI) and CDBG funded projects are also found in other sections of this document.

SHRA utilizes two primary funding sources to carry out capital improvement projects: CDBG funds and TI funds or bond proceeds. HOME, HTF, NSP and Housing Authority operational funding are restricted to housing activities, and thus are not included in the CIP. The chart below shows how the funding is appropriated.

**SHRA Community Development Appropriations
2009 Calendar Year Budget**

The CDBG capital improvement projects and programs must improve and enhance the livability of low/moderate income neighborhoods throughout the City. These projects can be classified in four main categories: residential street improvements, commercial strip improvements, park and recreation improvements and buildings for neighborhood activities. Redevelopment TI funds and bond proceeds are primarily invested in economic development and commercial revitalization activities (including public infrastructure) within the designated boundaries of the adopted redevelopment plan. While not the primary objective, TI and bond proceeds may also be invested in buildings and spaces for neighborhood activities. In addition, 20 percent of available TI funding must be invested in affordable housing activities. The Economic Stimulus Package of 2009 proposes to increase CDBG funding in 2009, so the use of these funds in capital improvement projects will be expanded as well.

SHRA's budget is set on a calendar year basis. Projects previously approved by the Mayor and City Council as part of the SHRA's 2009 budget are included in this CIP budget as year one funding in the five-year CIP. The allocation of new CDBG funds as part of the stimulus has not been determined by the U.S. Department of Housing and Urban Development as of yet, thus the allocation has not been included in this year's CIP.

The following table shows a summary of all 2009 funding sources.

**SACRAMENTO HOUSING AND REDEVELOPMENT AGENCY
2009 FUNDING SOURCES**

FUNDING SOURCE	2009
HUD Section 8 (HCV)	\$ 98,099,491
HUD Public Housing	\$ 15,319,195
HUD Community Development	\$ 50,320,664
Redevelopment Tax Increment (TI)	\$ 74,563,719
Other	\$ 6,776,645
TOTAL	\$245,079,714

Since this document is a Capital Improvement Budget, only project details on City and joint City/County Capital projects are included. However, as shown on the above chart, SHRA is involved with many other types of projects, as well.

REDEVELOPMENT

Program Goals

- Revitalization of older commercial corridors.
- Promotion of new and continuing private sector investment.
- Retention and expansion of businesses.
- Creation and development of local job opportunities.
- Rehabilitation and construction of affordable housing.
- Achievement of high level architectural, landscape, urban design and land use principles.
- Elimination of environmental deficiencies within the public infrastructure system.
- Elimination and prevention of the spread of blight and deterioration.

Project Selection Criteria

- Compliance with adopted five-year redevelopment area implementation plans.
- Compliance with adopted five-year investment strategies.
- Compliance with urban design plans.
- Return on investment - tax base, jobs and community improvements.
- Economic viability of project.
- Leverage of private capital.

SHRA budgets for redevelopment capital projects by designating dollars for specific projects and also by designating dollars for "development assistance." This latter category is available for commercial projects as they are identified, negotiated and approved. Generally, the staff report process is used to transfer appropriations from "development assistance" to a specific project.

The following table reflects project appropriations for calendar year 2009 by funding source for SHRA:

2009-2014 CAPITAL IMPROVEMENT PROGRAM

The CDBG Capital Improvement Program includes projects and programs that improve and enhance the livability of low/moderate income neighborhoods throughout the City. The projects can be classified in four main categories: residential street improvements, commercial strip improvements, park and recreation improvements, and buildings for neighborhood activities. Only projects approved in the 2009 Action Plan by the City Council and Housing and Urban Development (HUD) are included in this document.
