

## **VACCINATION AND WELLNESS CLINIC VOLUNTEER**

**DESCRIPTION:** Once a month (Third Sunday except in December) we offer a free vaccination clinic for our low income residents of the City of Sacramento. This clinic provides a basic examination of owned pets by a veterinarian as well as free vaccinations and boosters. We also offer microchipping at a very reduced cost. Volunteers assist in the registration and data entry process, animal movement through the procedures, customer assistance and education.

**DAYS AND HOURS AVAILABLE:** Clinics are held on the third Sunday of each month (except December) from 10:00-1:00 at the shelter.

**TRAINING REQUIREMENTS:** Volunteers interested in this activity are trained on the job and must be 18 years of age to participate. Other training requirements are: Orientation (a general overview of volunteer programs) and General Shelter Training (shelter policies, volunteer policies, animal laws, shelter tour, etc.). The total number of training hours prior to volunteering is approximately 4 hours.
