Vision & Concepts
3.1 Vision for the West Broadway Area

Currently a patchwork of dissimilar uses, the West Broadway area is expected to evolve from industrial lands and aged housing sites into a contemporary mixed-use, mixed-income neighborhood over the next 20 years. At the footsteps of the Broadway Bridge, the West Broadway area will be a new addition to the mosaic of neighborhoods in the city, enhancing the character and activity of Upper Land Park and the Greater Broadway District. Residents and patrons will enjoy a tree-lined neighborhood with retail and services on Broadway, improved amenities at Miller Regional Park and the Sacramento Marina, and shared-use path connections along the Sacramento and American River Parkways.
3.2 Key Themes Heard from the Community

Based on meeting conducted with the community and stakeholders, the following six themes represent the key considerations to be addressed as part of the vision for the West Broadway area. Issues and recommendations shared by the community are summarized by theme below.

<table>
<thead>
<tr>
<th>A Mixed-Income Community</th>
<th>Complete Streets/Walkability</th>
<th>Business &amp; Economic Improvement</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Support a diversity of housing and housing choices, including affordable senior housing.</td>
<td>• Plan for a complete streets network with a range of travel options for area residents.</td>
<td>• Promote industrial-style retail development similar to The Mill at Broadway Market Club project.</td>
</tr>
<tr>
<td>• Preserve affordability for existing residents.</td>
<td>• Improve street, bike, and pedestrian connections internally to area schools, transit facilities, and riverfront bike paths.</td>
<td>• Take advantage of the area’s prime location to attract businesses and services.</td>
</tr>
<tr>
<td>• Reduce the concentration of public housing with the inclusion of market-rate housing at Alder Grove and Marina Vista.</td>
<td>• Improve street, bike, and pedestrian connections outward to Broadway, Downtown, and adjacent neighborhoods.</td>
<td>• Support improvement projects that help to further catalyze development in the area.</td>
</tr>
<tr>
<td>• Upgrade the form and character of the public housing communities, including public spaces and streets.</td>
<td>• Provide a grid street network to disperse traffic and improve walkability.</td>
<td>• Extend the type of commercial retail and entertainment uses found in the eastern part of Broadway to west Broadway.</td>
</tr>
<tr>
<td>• Better integrate, rather than isolate, the public housing communities of Alder Grove and Marina Vista into the surrounding neighborhood area.</td>
<td>• Improve the use of alternative transportation modes:</td>
<td>• Facilitate the redevelopment of the fuel storage areas for new development.</td>
</tr>
<tr>
<td></td>
<td>o Connect bicyclists and pedestrians to Miller Regional Park via the existing tunnel under I-5.</td>
<td>• Include public art, landscape gateways, and streetscape improvements to enhance the West Broadway area and the Greater Broadway District.</td>
</tr>
<tr>
<td></td>
<td>o Improve bus facilities at existing stops.</td>
<td>• Add more jobs for area residents.</td>
</tr>
</tbody>
</table>
3.3 Plan Vision and Concepts

The Specific Plan Concept, shown in Figure 3-1, illustrates the vision for the West Broadway area and includes two concept scenarios for Miller Regional Park. The plan concept reflects the transformation of the West Broadway area with new land uses, a grid street pattern, and an interconnected open space network with convenient access to the commercial amenities on Broadway and the park and recreational uses along the Sacramento River.
Figure 3-1: Specific Plan Concept with Scenarios A and B for the Marina/Miller Regional Park Special Study Area

3.3.1 Planning Principles and Features

Based on input from the community visioning process, the following planning principles establish the priorities to guide the vision and concepts of the Specific Plan Area.

1. **Capitalize on the plan’s location near freeways, traditional neighborhoods in the city, the Broadway commercial corridor, and the river.**

   - Located adjacent to the major freeways connecting the region, the West Broadway area is planned as a new mixed-use neighborhood for traditional and urban housing, with neighborhood retail and service uses.
   - Development in the West Broadway area will add to the neighborhood diversity of the Central City and Land Park Community Plan Areas.
   - This Specific Plan will contribute to making Broadway a regional destination for recreation, entertainment, shopping, and other activities.
   - Enhancements and activation of Miller Regional Park will support improvement of Sacramento’s riverfront.

2. **Stitch together dissimilar land uses in the Specific Plan Area into a cohesive and walkable mixed-use neighborhood.**

   - This Specific Plan provides a vision for replacement of outdated industrial land uses, including the fuel storage sites along the Sacramento riverfront.
   - Specific Plan land uses will support a range of housing densities and products.
   - Active uses and storefronts clustered along Broadway and 5th Street help support a pedestrian-friendly, mixed-use environment.
2. Stitch together dissimilar land uses in the Specific Plan area into a cohesive and walkable mixed-use neighborhood

| Rezone outdated land uses, such as the fuel storage tanks at the west end of Broadway | Allow residential densities that support a wide range of housing products and housing choices | Plan for "active uses" along Broadway and "industrial retail" development on the industrial lands along 1st Avenue and 5th Street |

**LAND USE CONCEPT**

1. Replacement of fuel storage facilities with mixed-use retail and residential uses
2. Proposed active retail frontage and consistent building street edge on Broadway and 5th Street
3. Commercial and recreational uses to activate the park and marina
4. Proposed reconfiguration of Marina Vista and Alder Grove as a mixed-income community
5. Industrial retail inspired mixed-use development
6. Proposed site of Phase 5 of The Mill
3. **Activate Miller Regional Park and the Sacramento Marina.**

- The river is a natural regional draw and community resource. Miller Regional Park, with its extensive frontage and depth on the Sacramento River, could be improved as an amenity to better serve adjacent neighborhoods and the region.

- Miller Regional Park needs to be activated with uses that draw people and take advantage of its river frontage. Riverfront recreational activities could be augmented with restaurants and food, entertainment, and retail services.

- The Sacramento Marina is a unique asset to the area in Miller Regional Park. Over the long term, the marina may evolve as the region’s boating needs change to provide a place for non-motorized water activities.

- This Specific Plan can implement and improve a key bike path segment of the Sacramento River Parkway to help complete the regional bike network along the Sacramento and American Rivers.

- A cultural trail is developing along Sacramento’s riverfront. Miller Regional Park could be a destination for a new cultural facility, such as a museum, event space, and/or programmed city-wide recreation activity space.

4. **Foster walkable neighborhoods through improvements to multimodal connectivity and traffic calming.**

- This Specific Plan extends the Central City grid south into the Specific Plan Area to establish walkable neighborhood blocks and improve local connectivity.

- This Specific Plan proposes improvements to bike, pedestrian, and transit facilities in locations that support access to parks, schools, and other community amenities.

- This Specific Plan supports and provides options for traffic calming and improved bike and pedestrian connections, integrated with citywide bike plans.
4. Foster walkable neighborhoods through improvements to multimodal connectivity and traffic calming

- **Extend the Central City grid south to create walkable blocks and enhance local connectivity**
- **Improve multimodal connections to parks, schools, trails, transit, and other community amenities**
- **Improve bike and pedestrian improvements to the west end of Broadway**

**CIRCULATION CONCEPT**

1. Future Broadway Bridge connection
2. Extension of Downtown street grid with future redevelopment to establish more walkable blocks
3. Facilitate “safe routes to school”
4. Redesign the rail tunnel connection under I-5 for bike/pedestrian access to Miller Regional Park and river trails
5. Completion of shared-use path gap on the Sacramento River Parkway
6. Future Miller Park stop on the excursion train line to Old Sacramento
7. Future bike/pedestrian bridge river crossing
8. Gridded street network proposed with future redevelopment of Alder Grove and Marina Vista
3.4 Subarea Planning Concepts

1. West Broadway Gateway

Plans are underway for development of the Broadway Bridge, which would connect Sacramento along the Broadway corridor to West Sacramento. The future Broadway Bridge would provide an opportunity to reorient this subarea as a new western gateway into the city of Sacramento and to reclaim the real estate on the waterfront for other uses. This Specific Plan envisions the transformation of the existing fuel storage sites in this subarea into a new mixed-use residential community.

This community is envisioned to include high-rise residential and/or a residential and hotel development north of the Broadway Bridge and a mixed-use commercial and residential development that may be developed in conjunction with the adjacent parcel in the Miller Regional Park Special Study Area, south of Broadway.

Key Map: West Broadway Gateway Subarea
2. **Industrial Subarea**

The Industrial Subarea, north of The Mill at Broadway subarea and south of the Alder Grove subarea, can be developed as a new commercial and multi-family residential or mixed-use development, organized by walkable neighborhood blocks. This Specific Plan supports the reuse of existing, intact industrial structures for modern industrial retail development and live-work opportunities, like the concepts shown in the images below. Broadway is envisioned as a complete street with enhancements that support pedestrian use and commercial activity, including wide sidewalks, landscape planters, corner bulb-outs, street furnishings, and ground-floor storefronts. 1st Avenue should be improved as a shaded pedestrian-oriented street designed to connect the areas east and west to other subareas in the Specific Plan Area. It should have a design that supports neighborhood activities.
3. **The Mill at Broadway**

This subarea represents the site of the Northwest Land Park Planned Unit Development where Phases 1–4 of The Mill at Broadway are under construction. Phase 5 (east of 5th Street) is under review by the City. Circulation improvements to support the overall connectivity of the Specific Plan Area, including the extension of 6th Street south through the Phase 5 site, are being integrated into the project’s design in coordination with the Specific Plan effort.

4. **Alder Grove**

This Specific Plan supports the potential development of this subarea as a mixed-income community with a roadway network of smaller blocks that are more compatible with and better integrated with the surrounding neighborhoods. Because this subarea is adjacent to Broadway, land use designations for the northern portion of this subarea will support the potential for higher-density multi-family development, consistent with the densities and intensities recommended in the City’s General Plan.

5. **Marina Vista**

This Specific Plan supports the potential development of this subarea as a mixed-income community with a roadway network of smaller blocks that are more compatible with and better integrated with the surrounding neighborhoods. It does not change the land use in the subarea but anticipates a future housing program that supports a more integrated mix of public and market-rate housing.

6. **Subareas Not Anticipated to Change**

The Land Park Woods subarea is not anticipated to change. Planning for the school sites is not governed by this Specific Plan, except that The Mill at Broadway development will contribute to a new urban farm in the School Sites subarea.
7. Sacramento Marina/Miller Regional Park Special Study Area

Two concept scenarios proposed for the Special Study Area, referred to as Scenarios A and B, encompass the Sacramento Marina and Miller Regional Park. This Specific Plan does not make a recommendation regarding a preferred scenario as this decision will be made after additional market and feasibility analysis and public outreach following the adoption of this plan.

Scenario A is a preliminary concept that supports reconfiguration and redesign of Miller Regional Park and the Sacramento Marina to focus the marina boat docking functions on an expanded south basin of the marina, with alternative recreational opportunities provided in the north basin and beyond. Expansion of the south basin could be accomplished by narrowing the land on the peninsula between the marina and the Sacramento River and using that cut material as fill to expand the land area for additional park space and reduce the size of the north basin. As envisioned, the expanded Miller Regional Park under Scenario A can support a significant variety of public events and activities, such as water sports in the north basin; restaurants and an event center; a
stepped or seated lawn area for staging running, bike racing, volleyball, or other sporting events; music or special performance events; play areas; a public dock; steps into the river; and bike trail access along the Sacramento River and continuation of the Sacramento River Parkway parallel to the Sacramento Southern Railroad/State Park excursion train line, on the west side of Ramp Way.

Scenario B maintains the Sacramento Marina and Miller Regional Park west of the levee and excursion train line in its current condition, with limited improvement to park facilities. Modifications to the park would include continuation of the Sacramento River Parkway parallel to the train line; potential restoration improvements along the Sacramento River; and security improvements, such as lighting in the park and along bikeways. The fuel tank storage facilities, north of the park and south of Broadway (in the West Broadway Gateway Area), are also envisioned to be eventually removed, freeing these lands to potentially serve as an extension of Miller Regional Park.

The design concepts for Miller Regional Park are presented in Chapter 6 of this Specific Plan.

Sacramento Marina/Miller Regional Park Scenario B Concepts

River shoreline restoration  An improved marina edge  Sacramento River Parkway bike trail improvements  Lighting, park, and trail safety enhancements
