Location:		# Units:	0	Sq Ft:	
Description:	EPC - REVISION TO COM-1913266. Discovered a grade beam located directly below "wet wall" in the Concession area. The solution was to relocate the 3 Compartment sink, hand wash sink and mop sink to the window wall and build furring walls. Items that relocated from this area to our original wet wall included the ice machine and prep table. The above triggered not only plumbing changes but electrical changes as well. The concession also had epoxy cove base added to the existing troweled epoxy floor as required by the Sac County Health Dept. Changes to the Beer Garden included Die walls to encapsulate the mobile Kegorators and a transaction counter with lowered ADA service area.
