Address:	714 23RD ST	Issued:	10/16/2020	Finished:
Location:		# Units:	0	Sq Ft:
Description:	EMERGENCY GAS LINE REPLACEMENT. CAP ALL EXISTING AND INSTALL NEW 3/4. SEE ISO. [demo and cap all existing exposed gas lines for unit 712. We will then install a new 3/4" gas line from the meter to the wall furnace and water heater. This includes saw cutting, breaking and remove of a portion of the concrete walkway, digging and backfill of the trench for the underground gas portion. We will run a new gas line under ground from the meter to the east side corner of the building, stub up above the ground and then run the line exposed on the building until it enters the unit in the ceiling. We will open walls and ceilings as needed to run the line to the wall furnace and water heater. We will pressure test the line at 10 psi for the inspector. After the pressure test is passed we will connect the new line to the gas meter. This estimate also includes the install of the underground 3/4" piping only from the meter to the building for a future gas line install for the upstairs unit #710. Pressure testing and inspection of the line and capped ends for future use. Includes a permit, opening of walls and ceilings as needed. Excludes any wall or ceiling patching and paint. Excludes concrete pour back. WE will Continue the gas line install for unit #710 at the same time as the install for unit #712. The install would be the same as unit #712.]
