<b>Description:</b>	EPC - Modification to an existing AT&T Mobility wireless facility, which is located on the roof of the existing building that will include the replacement of (5) existing antennas with (5) newer model antennas on the existing building screen wall. In addition to the replacements, AT&T will be removing (2) un-used antennas from the site. Scope of work will also include the replacement of (4) existing Remote Radio Units (RRU's) with (4) newer models. AT&T is also proposing to add an additional (4) new RRU's out by the new antennas. Both the new and existing RRU's will be located behind the screen wall, and not visible from ground level. Project will also consist of the installation of (1) new DC surge suppressor for the new radio's, plus (3) new -48 rectifiers to be installed within the existing DC power plant located in the shelter. AT&T is also proposing to upgrade their LTE radios within the shelter as well.
