<b>Activity:</b> AMR-2219086	<b>Type:</b> Building / Commercial / AMMR / Document
<b>Parcel:</b> 00603700370000	<b>Applied:</b> 09/07/2022
<b>Address:</b> 660 J ST	<b>Category:</b> Mix-Use
<b>Location:</b>	<b>Issued:</b>
<b>Description:</b> EPC - Proposed enclosed spaces on roof include the elevator lobby and elevator equipment rooms, that are defined as enclosed ancillary spaces per 2019 CBC 1510.2.2. In addition, we have a restroom and storage room, which we propose to include as part of our ancillary calculation. Due to our construction type and A-3 occupancy of the roof terrace space, an enclosed fifth floor is not permitted. However, the non-enclosed roof terrace space can be associated with the floor below (fourth floor) per 2019 CBC 503.1.4 and is thereby not considered an additional floor. We would like to propose this AMMR to consider the proposed enclosed spaces on roof can be associated with the floor below and is not considered an additional floor.	<b># Units:</b> 0

<b>Description:</b> EPC - The changes for Delta Revision 1 are being made to address a SMUD requirement that there must be drivable access road within 15' of the transformer. The transformer for this project is existing and is located on the northeast side of the site, behind the building. In order to satisfy this SMUD requirement, we have revised the drivable area east of the trash enclosure to reach within 15' of the existing transformer. The affected sheets are Sheet C1, C5, C6, C8, L2, and L3.	<b>Finished:</b>
