<b>Description:</b> EPC. Revision to COM-1721796. Type: VB. Occ: R-2.			
Due to the Covid supply chain disruption, the main switch board in Building E will not be available when needed for the project occupancy. We are submitting this to allow the fire alarm control panel to be energized by permanent power from the house panel at the adjacent building. When Building E main switch board arrives the fire alarm control panel will be changed over to that service per the original design. We need to the fire alarm control panel to obtain completion of the other structures located at Twin Rivers Block A.
