Description: EPC - Remodel Power Station B building as a cold shell. The scope of work includes removal of floor and roof which has been deemed unsafe. Installation of new foundation, new floor, and roof. Stabilization and repair of the existing exterior concrete wall. A weather tight envelope to prevent further deterioration. The scope of work also includes the installation of new stairs, the second floor, rough grading of the site, below slab rough-in for plumbing and electrical systems. It is not the intent of this scope of work to result in an occupied building therefore does not include measures for life safety or fire protection. Those measures will be included in the main building package to be submitted separately. - PLNG-INSP
