<b>Description:</b> install of 40A 240V circuit in the gargaie to operate a level 2 ev charger. Accessing the breaker box from the insude the garage by removing the sheet rock and connect it with the NEMA 14-50 socket in a gang box 10-12 feet away using a BAGW wire. The exposed portiono f the wall will be covered with sheet rock again. REVISION RES-2202129-due to field conditions - unexpected finding of 4x10 pillar in the wall with not enough space next to it to be able to drill a proper hole through it to pass the wire. The revised plans is to pass the 8AWG wire up through the stud bay and then through a 3/4 inch metal conduit placed 8 feet above the ground on the dry wall with conduit bodies on either side to pass the wire.
