Federal Emergency Management Agency

Effective December 2008, the City ceased issuing any building permits for new construction within the larger Natomas Basin Area until the levees protecting the Natomas Basin Area are certified by the Federal Emergency Management Agency (FEMA) as providing 100-year flood protection and the area is re-mapped by FEMA. Until that occurs, no further development will take place in the Natomas Basin Area. In recent years, the Sacramento Area Flood Control Agency, in collaboration with the U.S. Corp of Engineers has worked on the Natomas Levee Improvement Program. Below is the updated status of the City’s efforts with FEMA to re-zone the flood basin map and resume new construction in the Natomas area.

- In May 2013, the U.S. Senate passed the Water Resources Reform and Development Act of 2013 (WRRDA);
- In October 2013, the U.S. House of Representatives passed the WRRDA;
- In November 2013, a Senate-House conference committee was formed to reconcile the two versions of water resources legislation, a process that is still ongoing;
- Once the WRRDA passes the conference committee, it will go to the floor of both houses for a vote, then onto the President for signature; and
- Once the WRRDA get ratified, the City will be able to make its final request to FEMA for an A99 zone in Natomas (a preliminary request was made to FEMA for A99 about a year ago).

When development in the North Natomas area resumes again, information on large scale projects can be found using the link below.
