Federal Emergency Management Agency

On June 16, 2015, the Federal Emergency Management Agency issued new Flood Insurance Rate Maps (FIRMs) for the Natomas Basin. The new FIRMs changed the basin’s flood-zone designation from AE to A99 because the 50% criterion for completion of the levee work and federal authorization had been achieved. The practical result of the change was to lift the de facto building moratorium that the basin had been under since December 8, 2008.

In collaboration with the Sacramento Area Flood Control Agency and the California Department of Water Resources, the U.S. Army Corps of Engineers has been working on completing the remaining levee work in Natomas. The Natomas Levees are being improved in two phases. Construction of the Natomas Levee Improvement Program Local Project, led by SAFCA, is complete. The remainder of the levee improvements are being completed by the U.S. Army Corps of Engineers. The goal is to have the levee work completed before 2025, thereby providing 200-year level of flood protection in Natomas.
