**Inclusive Economic Development  
Capacity Building**

# Inclusive Economic Development

- Advancing regional economic growth and productivity, including an improved standard of living for the residents of low and moderate income.
- Economic growth that is fairly distributed across the city, allowing all residents to participate.

# Regional Destinations

## **All neighborhoods have citywide destination points**

Attractions that include sports, family activities, food, and all are based in business and economic growth.

- Central points for business and social activities
- Small business development
- Workforce development
- Social enhancement and hubs
- Physical infrastructure

# Metrics Guide and Quality of Life Index
