

**SACRAMENTO FIRE DEPARTMENT  
FIRE PREVENTION DIVISION  
FIRE DEPARTMENT DEVELOPMENT SERVICES UNIT**

**I. Fire Access and Fire Hydrants**

1. Paved all-weather fire access road (designed to City of Sacramento, standard specifications) and fire hydrants shall be installed and in service prior to any combustible construction materials being brought on site.
2. No parking in fire lanes is enforced during construction. If found parking in front of a fire hydrant or designated fire lane a citation will be issued.
3. Fire hydrants that are not in service shall be covered with a black plastic bag. Hydrants in service shall have plastic bags removed immediately. Before removing a hydrant from service you must notify a fire department representative.
