► The length of a license is dependent on the length of the rabies vaccination. You may NOT purchase a 2-year or 3-year license if the rabies vaccination is only good for 1 year.

► A license will expire on the anniversary date (i.e. same day and month) of the rabies vaccination. License expiration is NOT based on the day when the license was purchased.

► A license cannot expire after the rabies vaccination expiration. In order for a license to be valid, the rabies vaccination must be valid for the same period of time as the license.

**MICROCHIPPING**

We offer microchipping for a one-time fee of \$5 (including microchip registration). Please email or call for availability.
