

Surprise Rainbow Activity

Here is what you will need:

- Paper Towels
- Washable Markers
- Black Sharpie
- Water
- Dropper or pipette
- A baking tray or another tray to protect your table

For this activity you will need 2 sheets of paper towel, washable markers, a black permanent marker and a dropper with water.

1. Get 2 sheets of paper towel and fold them over together.
2. Draw a rainbow with washable markers on the top sheet. You want to make sure you press hard and fill it in with color because this is what will bleed through for the surprise color.

3. Use a black sharpie to draw on top of the washable marker color.

4. Keep adding the black sharpie until your rainbow is fully covered.

5. Now your activity is ready! Use a dropper to add the water to the paper towel to reveal the rainbow underneath.

6. Keep adding water with the dropper until all of the colors have come out. You will be left with a surprise rainbow!
