Yes, hopping around like a bunny may not be a very long way to entertain kids. But remember there are ELEVEN animals here!

If you really want to give the kids a work out, given them some guidance. E.g. do all 11 animal exercises and repeat X times!

Or give them a distance goal. E.g. hop like a bunny from this end to the next. Or make five laps as a crab.

What if my kids’ favorite animal isn’t featured in these exercises?
Want to know something cool? Kids love making stuff up and usually it leads to good things.

If your kids love let’s say, dolphins, challenge them to make up an exercise that mimics a dolphin’s movement!

This builds creative thinking and makes exercise fun and games instead of hard work and sweat!
