

HOMEMADE MUD PLAY DOUGH DINOSAUR EGGS

My little boy loves digging his hands through dirt so what could be more fun than some homemade mud play? This mud [play dough](#) recipe is so easy to make with a couple of kitchen ingredients. We loved making mud dinosaur eggs out of it!

Homemade Mud Play Dough – Ingredients:

- 1 1/2 Cups of [soil](#)
- 1 Cup of flour
- 1 Cup water
- [Toy Dinosaurs](#)

Instructions:

Step 1. Dump the ingredients into a bowl and knead until it becomes pliable and a dough-like consistency. Add more water if too dry or more flour if wet.

Step 2. Then it's time to shape, mold and make dinosaur eggs!

Even though summer is coming to a close, what's great about this fun sensory project is that you can play with it right at home. No need to go outside to dig for mud.
