

Music Club

Music Club is virtual programming via Zoom, that allows the opportunity for youth and teen participants to partake in a weekly club from home. Participants can join the Zoom session for free via a tablet, phone, laptop, or PC. Music Club consists of two components that provide a platform for everyone to showcase their talent with "Mondays on the Mic" karaoke and participate in a virtual "Club Choir", where the club will learn and perform music together. There will be Special Guest days, where a special community guest will participate in "Mondays on the Mic." Music Club also has incentives, awards, and prizes for participants.

Music Club
