

## Neighborhood Organization Form

Neighborhood organizations help keep our community safe, clean, and healthy. The NSD Neighborhood Directory provides key information for groups at work in your neighborhood. To add a new group to the directory, your organization must have identified leaders, meet at least every three months, and have defined boundaries. Submit a request to add or update your neighborhood organization by completing the neighborhood organization form. For addition assistance, please contact Neighborhood Services Division at (916) 808-6789.
