## WHAT IS THE DEL RIO TRAIL PROJECT?

The proposed Del Rio Trail is an inner-city trail that will allow cyclists, pedestrians, runners and dog walkers to travel for miles to access schools, parks, retail centers and jobs. It provides the potential for recreation amenities and will serve as an alternative commute route for people to bike to work rather than drive on freeways and boulevards.

This project, along with other projects the City is advancing, is part of the City's goal to provide more opportunities for Sacramentans to be active and healthy while also protecting our environment.
