Footnotes:	· · · · · · · · · · · · · · · · · · ·					

#### Footnotes:

Settle: Balance of fees due under settlement agreement of 5/18/2001, after contribution of Souza and Natomas Farms Properties

Sills: Balance of fees due after contribution of Sills Property

Alleg: Difference between acquisition fee of \$6,947 per acre for 513.8 acres and the cost of 206.9 acres of land purchased on the conservancy's behalf by Alleghany. Alleghany donated the remaining 50 acre parcel to the Conservancy on November 7, 2002

FEEWLD: Fees abated for land acquisition portion of total fee. Land was dedicated in partial satisfaction for payment of fees.

NCent: Fees paid for Natomas Central were based on 2004 mitigation rates by exception granted by the City of Sacramento

Annex: Projects w/in Panhandle area not yet annexed into the City of Sacramento but included in the NBHCP Permit Area

Ose: Ose property (The Crossing) pre-paid fees in 1999, however this property did not receive an urban development permit and is not included in the acreage totals on this table.

**Loan to TNBC:** April 7, 2020 City Council approved a \$2 million loan to TNBC for land acquisition purposes. May18, 2020 City transferred \$2 million to the Conservancy. City retains the land acquisition component of the HCP fees for the repayment of the loan. **Lag:** Fee payment lagged the actual grading activity.

2%: Beginning in 2012, the City retained the 2% administrative fee; thus this schedule shows net proceeds only.

**Tufts**: In 2004, Opus West paid HCP mitigation fees on 295.9 project acres at the 2004 land dedication mitigation fee rate (\$8,624) and dedicated the Tufts tract, 147.95 acres, to satisfy the land dedication portion of the fee. TNBC carries credits for 32.1075 acres (Brookfield) and 10.7215 acres (unassigned).

Coral: Coke/Raley's non-HCP mitigation fees deposited into the Conservancy's Endowment Fund.

#### Footnotes:

- 1 The City of Sacramento (North Natomas Regional Park) graded 17.49 acres in 2007; however, the grading permit was issued and the fees were paid in 2008.
- 2 The West El Camino Arco AM/PM site was issued a grading permit and graded 2.1 acres in 2008; however fees were paid for 1.62 acres in 2008 and for 0.48 acres in 2009.
- 3 The Ose property (The Crossing) pre-paid fees in 1999, however this property did not receive an urban development permit and is not included in the acreage totals on this table.

#### Attachment F Summary of Mitigation Measures from Pre-Construction Biological Surveys 2022 Grading-Construction Activity

The City is required to comply with the terms of the Natomas Basin Habitat Conservation Plan (HCP) (City of Sacramento, et al. 2003) prior to new grading / habitat disturbance. Pre-Construction Biological Surveys are prepared to document compliance with the pre-construction requirements of the HCP and includes descriptions of the study methodology, results of fieldwork, and conclusions regarding implementation of conservation measures. Prior to authorization of any grading activity, proposed development must meet the requirements set forth in Attachment G (Pre-Construction Survey Checklist).

There was very limited new grading that occurred in 2022. In 2022, there was 3.62 acres grading activity in North Natomas. Although, there was an increase in building construction activity that took place in 2022 it was done so on properties that were previously graded per prior approvals. For properties that experienced limited activity following the initially mass grading, the City required updated biological surveys prior to issuance of building permits. The attached table identifies all of the 2022 biological surveys (including updated/follow-up surveys) in chronological order starting with the most recent.

# NATOMAS BASIN HABITAT CONSERVATION PLAN INVENTORY OF BIOLOGICAL SURVEYS FOR YEAR 2022

Resource Agency Notification Date*	Bio Report Date & Survey Date	Project Name & Biologist	Brief Description	Notes
2022 Annual Report	2/11/2022  Bio Survey Date: 2/10/2022  Biologist Mark Mummert of SWCA Environmental Consultants	East Commerce Office Park Bldg. E (DR20-212)	The 0.5-acre property for the proposed East Commerce Office Park Building E is located at 4124 E Commerce Way, Sacramento, California	No SWHA, BUOW, or other nesting birds were observed at the site or within 300 feet of the site. Two backfilled mammal burrows were present within the Project footprint. Recommend present burrow be collapsed. No sign (i.e.pellets, feathers, whitewash) or BUOW were observed using the area.
2022 Annual Report	2/23/2022  Bio Survey Date: 2/18 and 2/19, 2022  Biologist: Dustin Brown of Madrone Ecological Consulting	Starbucks at I-5 & Arena Blvd.	The 1.68-acre property is located east of Interstate 5, south of Arena Boulevard in North Natomas area of the City of Sacramento	No species covered under the NBHCP are present within the project boundary or in the vicinity of the project. Since no special-status species are present within the project or with the species buffers, no additional compensatory mitigation or other recommendations are proposed for the project.
2022 Annual Report	2/25/2022  Bio Survey Date: 2/10/2022  Biologist Art Richardson from Area West Environmental, Inc.	2211 Del Paso Road Autozone (DR21-133)	The 1.28-acre property is located 2211 Del Paso Road, Sacramento CA	No species covered under the NBHCP were observed within or surrounding the Project site during the preconstruction survey. Additionally, no suitable habitat for any species covered under the NBHCP was observed on the Project site. No bird nests were identified in the ornamental trees or shrubs located on the Project site.

2022 Annual Report	3/23/2022 and 4/11/2022  Bio Survey Date: On 3/18/ 2022 and April 11, 2022  Biologist(s): Nicole Dunkley and Amanda Segura-Moon on behalf of Environmental Science Associates	River Oaks Marketplace (P19- 012)	The 5.23-acre property is located at the northwest corner of West El Camino Avenue and Orchard Lane in the South Natomas area of the City of Sacramento	There were no special status species observed on the site, or in the relevant proximity of the project site. There are no species observed that will be affected by project activities on the project site or in proximity of the site. There are no vernal pools, swales, or seasonal wetlands capable of supporting vernal pool associated species within 250 feet of the project activity. There is no suitable giant garter snake habitat present within 250 feet of the project activity. There are no observed Swainson's Hawk nests within a half mile of the activity. There are no elderberry shrubs observed within 1000 feet of the project site or tricolored blackbird nests within 500 feet of the project site.
2022 Annual Report	4/18/2022  Bio Survey Date: 4/13/2022 and 4/14/2022  Biologist: Dustin Brown of Madrone Ecological Consulting	Wendy's Drive Thru - (P20-032)	Wendy's – located on a 1.137-acre parcel east of Interstate 5, south of Arena Boulevard at 2630 Arena Boulevard.	No special-status species are present within the Project boundary or in the vicinity of the Project. Since no special-status species are present within the Project or within the species survey buffers, no additional compensatory mitigation or other recommendations are proposed for the Project.

2022 Annual Report	8/5/2022  Bio Survey Date: 8/5/2022 and 9/2/2022  Biologist: Alex Jamal of SWCA Consultants	Dutch Bros (DR21- 160)	The Project site is located at 4481 East Commerce Way, parcel (APN 225-1960-023; ± 1.0 acres) is located west of the intersection of Advantage Court and Benefit Way in the Natomas area of Sacramento, California	No active bird nests, burrowing owls, active raptor nests, or giant garter snakes were observed within the survey area during the survey on August 05, 2022. No additional survey is recommended if construction starts within the next two weeks. It is possible that the inactive nests could again be used this nesting season.
2022 Annual Report	10/12/2022  Bio Survey Date: 10/6/2022  Biologist: Greg Davis of HELIX Environmental Planning	Duckhorn Apartments (DR18- 146)	Parcels used as Stockpiling/Staging Area for construction of the Duckhorn Apartments Project (Adjacent parcels – 225-0140-056 & 225-0140-057)	No NBHCP covered species were observed within the Project Site or species-specific buffers of the Project Site. The site may provide foraging habitat within the ruderal/disturbed field for some covered avian species; however, these species are not anticipated to be occupying the site and are not expected to be impacted by the onset of construction activities and, therefore, construction activities can commence as planned. No impacts have occurred to APN 225-0140-057 which reflects only the landowner's regular disking.
2022 Annual Report	11/4//2022 Bio Survey Date: 10/18/2022	Natomas Fountains Apartments (P20- 001)	The Project site is located at 3801 Gateway Park Boulevard on a 10.9-acre parcel west of Gateway Park Boulevard (APN: 225-0160-097-0000)	No NBHCP covered species were observed within the Study Area. Suitable habitat is present for giant garter snake and burrowing owl along the levee road between the Project Site and Natomas East Canal Drainage. The site may also provide foraging habitat within the ruderal/disturbed field for some covered avian species; however, these species are not anticipated to be occupying the site and are not expected to be impacted by the onset of construction.

2022 Annual Report	11/7/2022	Chipotle Natomas	The Survey Area is approximately 1.1 acres in size, and is	One occupied burrowing owl
2022 Alliluai Report	11/7/2022	Crossing	located east of Interstate 5, south of Arena Boulevard, and	burrow was observed 254-feet west
	Bio Survey Date	(P21-037)	west of East Commerce Way at 2650 Arena Boulevard.	of the Project. The biologist
	11/4/2022	(P21-057)	west of East Commerce way at 2000 Arena Boulevard.	conducted an observation of the
	11/4/2022			owl and determined that the owl is
	Dialogist.			
	Biologist:			accustomed to ambient traffic
	Dustin Brown			noise from nearby Arena
				Boulevard, Interstate 5, and from
				loud overhead commercial jetliners.
				The owl is also accustomed to
				pedestrians and their dogs walking
				along Arena Boulevard
				approximately 50-feet to the north
				and along the pedestrian path
				approximately 60-feet to the south
				of the burrow. Additionally, the owl
				is accustomed to ongoing
				construction noise and activity
				within other Natomas Crossing
				Quadrant C parcels to the east
				of the Chipotle parcel. All
				construction associated with the
				Chipotle parcel will remain within
				the parcel and will not encroach to
				the west toward the occupied
				burrow. It should also be noted that
				we are in the nonbreeding
				burrowing owl season and that
				burrowing owls are less sensitive to
				human activities than they are
				during the breeding season
				(February 1 through August 31).
				Because the owl is accustomed to
				loud ambient noise and nearby
				pedestrians and dogs, and we are
				outside of the breeding season,
				construction activity within the
				Chipotle parcel will have no impact
				to the owl. No additional mitigation
				is recommended for the Project.
		1		is recommended for the Project.

# Pre-Construction Protocols Natomas Basin Habitat Conservation Plan

Attached is a checklist related to preparing a complete pre-construction survey for a proposed urban development project in the Natomas area subject to the 2003 Natomas Basin Habitat Conservation Plan (NBHCP).

Submittal of a pre-construction survey is one of several required steps toward obtaining and Urban Development Permit that allows grading within the Natomas Basin subject to the HCP. For questions about the urban development permitting process -- including pre-construction surveys -- within the City of Sacramento, please contact:

Cheryle Hodge at (916) 808-5971, chodge@cityofsacramento.org

All pre-construction surveys shall be submitted to the City of Sacramento, Community Development Department.

The City is the point of contact for HCP matters and will provide the completed pre-construction survey to each of the following:

- U.S. Fish and Wildlife Service (Attn: Adam Stewart);
- California Department of Fish and Wildlife (Attn: Dylan Wood);
- Sutter County (Attn: Arwen Wacht);
- Natomas Basin Conservancy (Attn: John Roberts)

The pre-construction survey will generally include:

- I. Project Description;
- II. Results of the Biological Survey; and
- III. Conservation Measures.

A pre-construction survey is needed a minimum of 30 days and a maximum of 6 months prior to grading or otherwise disturbing the site. The requirement to provide a pre-construction survey applies to both public and private development projects.

If this survey is the first pre-construction survey the biologist has prepared for the NBHCP, a resume of qualifications should be submitted to USFWS and CDFW with the complete pre-construction survey.

For NBHCP, conservation measures are to be implemented as conditions of urban development permits, as well as for projects sponsored by the respective land use agency (NBHCP §V-1).

The purpose of the pre-construction survey is to determine the status, presence of, and likely impacts to covered species. Wildlife Agency-approved biologists shall conduct the surveys and must implement the conservation measures outlined in the NBHCP, unless otherwise approved by the Wildlife Agencies. Because of concerns regarding Swainson's hawk, conducting the pre-construction survey at least 30 days prior to construction activities is especially important for construction projects that are initiated near riparian and tree groves and when work will commence in spring or early summer.

Surveys and recommended conservation measures are provided to the permitting agency (City of Sacramento), Sutter County, CDFW, and the USFWS. Based upon the results of the preconstruction survey, the land-use agencies identify appropriate conservation measures. Reconnaissance level surveys may indicate that species-specific surveys are not necessary. It is the permittee's (i.e., the City and Sutter) responsibility to ensure the appropriate surveys have been conducted and that appropriate conservation measures are being implemented.

Note: Plant surveys must be appropriately timed so that the plants will be identifiable, if present.

The pre-construction survey must include:

- 1. The name of the project.
- 2. The exact location and size (acres) of the project within the City/Sutter's permit area. Include a map. Something on the scale of the maps in the Implementation Agreement should be sufficient.
- 3. The dates and types of survey(s) conducted.
- 4. A description of the site. Describe current land uses, habitats on site, habitats adjacent to the site such as canals, waterways, trees, riparian areas, and shrubscrub. Is it grasslands, wetlands (includes both jurisdictional and non-jurisdictional), row crops, pasture, rice, etc.? Are there seasonal wetlands or vernal pools? What are the adjacent land uses? Past land uses should also be described to the extent possible since those uses may have some bearing on the species that could occur on site. Any species observed on site should be described and noted.
- 5. Recorded special status species occurrences including: a description of known occurrences on the site and on adjacent sites, known California Natural Diversity Database (CNDDB) records on site and on adjacent sites, occurrences from previous biological monitoring results (contact the Natomas Basin Conservancy for this information), records published in the NBHCP. Be sure to note the nearest localities of Swainson's hawk nest trees, giant garter snake records, even if not on the project site.
- 6. A statement as to whether or not there are any vernal pools, swales, or other seasonal wetlands capable of supporting vernal pool associated species (i.e. Vernal Pool Fairy Shrimp, Vernal Pool Tadpole Shrimp, Colusa grass, Sacramento Orcutt grass, slender Orcutt grass, Midvalley Fairy Shrimp, Legenere, Bogg's Lake Hedge-Hyssop, western spadefoot toad, and California tiger salamander) within 250 feet of project activities. If so, additional surveys and/or mitigation may be necessary. See sections V.A.4, V.A.5.k-m, and V.A.5.p for further info.

- 7. A statement as to whether or not the proposed project is within 200 feet of any potential giant garter snake aquatic habitat (i.e., contains water between May 1 and October 1 does not have to be wet the entire time). This also includes canals and ditches operated by RD 1000 and Natomas Central Mutual Water Company. Is so, see NBHCP § V.A.5.a.
- 8. A statement as to whether or not there are any Swainson's hawk nests within ¼ mile and/or within ½ mile of the project site. If either, see NBHCP §V.A.5.b. If any trees are on site or in the vicinity, the surveys must be timed to detect Swainson's hawk nesting.
- 9. A statement as to whether or not there are any elderberry shrubs with stems measuring greater than one inch in diameter at ground level within 1000 feet of proposed project activities. If so, see NBHCP §V.A.5.c. The applicant may need to mitigate separately with the Service.
- 10. A statement as to whether or not there are any tricolor nests within 500 feet of the proposed project. If so, see NBHCP §V.A.5.d.
- 11. A statement as to whether or not there are any Aleutian Canada geese on-site. If so, see NBHCP §V.A.5.e.
- 12. A statement as to whether or not there are any white-faced ibis nest sites within ½ mile of proposed project activities. If so, see NBHCP § V.A.5.f.
- 13. A statement as to whether or not any loggerhead shrike nest sites are within 100 feet of proposed project activities. If so, see NBHCP § V.A.5.g.
- 14. A statement as to whether or not any burrowing owl burrows are within 300 feet of proposed project activities. Relocation of affected owls may be necessary. If so, see NBHCP § V.A.5.h.
- 15. A statement as to whether or not there are any bank swallow nest sites within 250 feet of proposed project activities. If so, see NBHCP § V.A.5.i.
- 16. A statement as to whether or not there is any Sanford's arrowhead or delta tule pea habitat on-site. If so, see NBHCP § V.A.5.n and V.A.5.o.
- 17. Conclusions of surveys and research: report those special status species that do occur or could potentially occur on site, as well as those species that could be affected by project activities. For example, birds nesting in proximity (see species-specific information for a definition of proximity) to the site. The report should include a description of activities that may affect covered species. These conclusions should be based upon your responses to items 4-16 above.
- 18. Recommendations: the consulting biologist should recommend those avoidance and minimization measures appropriate to the habitats on or adjacent to the site, the species that may occur on site, and the types of activities that could affect special status special (dewatering canals prior to filling; installing one-way doors on owl burrows; following timing restrictions near an active nests; etc.). These conclusions should be based upon your responses to items 4-17 above.
- 19. A statement of how many acres of mitigation will be provided.

Notes: When addressing nesting bird species, consulting biologists must actually survey for the birds. For example item 10 asks if there are any tricolor blackbird nests within 500 feet of the project site. In addition to consulting CNDDB and other date sources, the biologist should actually look for tricolor blackbirds within 500 feet of the project site. Do not just rely on known localities.

All observations of covered species should be reported to CNDDB by the consulting biologist.

As stated above and in the NBHCP, it is up to the permitting agency (the City) to ensure that the appropriate surveys are being conducted and therefore, that the appropriate minimization measures will be implemented. The person issuing the urban development permit needs to read the report, ensure that all the necessary information has been included in the report, and ensure that the mitigation and minimization actions are consistent with observations on the property.

All planning staff should rely upon the April 2003 Final Natomas Basin Habitat Conservation Plan and the June 2003 errata to the HCP to assist them in reviewing pre-construction surveys.
