Project Location - Specific:

The proposed drainage improvements would be constructed partially within the existing City of Sacramento easement east of the intersection of Verano Street and Hudson Way and partially on private property. Project Location - City: Sacramento Project Location - County: Sacramento

Description of Nature, Purpose and Beneficiaries of Project:

The purpose of the project is to improve drainage conditions along Hudson Way and the surrounding neighborhood during storm events, which currently drains to Arcade Creek via overland flow. The project involves installation of 750 feet of new 15-inch-diameter stormwater pipe and related infrastructure to collect and convey stormwater to Arcade Creek from Hudson Way. A new outfall would be installed in Arcade Creek above the ordinary high water mark to avoid impacts to the creek. All new utility infrastructure would be designed in accordance with the City development standards.
